Read the Following Certificate From the Hon. H. D. Foster, Member of Congress from Pennsylvania. Washington. D. C. June 10, 1846.

Dear Sir-I have been a Dyspeptic sufferer for icines for relief, without success, until made use of your Oxygenated Bitters. I have used about two bottles, and find myself restored to perfect health. The forms in which the disease showed itself in my case, were, great acidity of the stom-ach, loss of appetite, extreme flatulence severe constitution of the lowels, and violent headachers. Feeling de from that a knowledge of your valuble remoty may reach others similarly afflicted, I take great pleasure in recording my testimony to its curative power; and would also remark, that while on a visit at home a short time since. I administered a part of a bettle to a number of my atthoted friends, with great success. They are desirous that you should establish an agency at Pitteburg, or inform them where the medicine can be cleaned. With an ensured desire for your prosperity and happiness. I subscribe myself traly your CHEAP! iend, II. D. FOSTER. Dr. Geo. B. Guers, Windsor, Vt.

THE MARRIAGE STATE; Whall Hoppiness and Bealth, or Misery and Steleness, attend it f

MOST STARTLING CONSIDERATIONS! Reflections for the Thoughtful.

Strange that countless human beings exist and drag through life as do the heasts of the field, or the macts of the earth, evincing no more thought or reflection than though the noble faculties of mind were not roughsafed to them. Many such are husbands and fathers, upon whom are dependent the health, the well-being, and the happiness of a confiding and affectionate wife, with perhaps a family of children.

HOW OFFER IT HAPPENS THAT THE WIFE LINGERS FROM YEAR TO YEAR WIFE LINGERS FROM YEAR TO YEAR In that pitable condition as not even for one day to feel the happy and exhiberating influence incident to the enjoyment of hoalth.

She may not be an invalid confined to her bed, or even to her room; as her pride, ambition and energy induce and nerve her to take personal charge of her household, even when her health will not admit of it; but she is nevertheless perceptibly sinking from day to day, and always alling.

Thus, day after day, and month after month transpire. Her health daily sinks, till finally even the hope of recevery no longer remains. And thus

THE BLOOMING BRIDE, But a few years ago in the flush of health and youth, and biosyancy of apirits, rapidly, and apparently inexplicably, becomes a feable, sickly, debilitated wife, with frame canadated, nerves un strung, spirits depressed, countenance hearing the impress of suffering, and an atter physical and mental prostration.

this deplorable change may and does Sometimes that deplorance change may an over arise from organic or constitutional causes. But oftener, by far oftener, to gross and inexcusable ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and mixery, not only to the wife, but often

And must this continue? Shall we be wise in all that concerns the cattle of our fields, our horses, our sheep, our cars, our oxen, the nature and sharacter of the soil us possess, the texture and sharacter of the soil us possess, the texture and sharacter of the soil us possess, the texture and sharacter of the soil us possess, the texture and sharacter of the soil us possess. quality of our goods and merchandise; but in all that concerns ourselves as human beings, with human soncerns ourselves as human beings, with human functions and passions, subject to ground derangement, involving our future peace and happiness—in all that concerns the health and welfure of the wife of our affections, and the mother of our children; in all that concerns the mental and physical well being of those children, we should be immersed in the darkest and most

BENIGHTED IGNORANCE,

AN CULPABLE AS INEXCUSABLE! How long shall this ignorance prevail so productive of its bitter fruits? How long shall the wif two of its bitter fruits. How long shall the wife and mother be ignorant of the enture, character and causes of the various womb and sexual complaints, embittering her days by suffering suffering often prolonged to years, eventuating in a complication of diseases utterly and hopelessly incurable? Shall we for ever close our eyes to the results of physio-logical science by which we may arrive at an understanding of ourselves as men and women, subject to serious life-long enduring diseases, and perpotuating them to our children.
